

Our most recent event was the Easter egg Hunt around the estate last week which raised £451.83. We have also been able to offer lots of fun opportunities to the children of the school with the money raised such as creating a Buckton Fields Pumpkin Patch in October where children were able to pick a pumpkin from the field and decorate them with their friends in school, this was a free event.

We also offered a free end of year disco for all of the school. We have contributed £3 per child to help support families with the cost of school trips and have agreed this will be an annual contribution. We are looking at helping to fund on site forest school sessions for the children as with the lack of green space due to the temporary building taking up most of the school field the children have limited access to green areas at breaktimes. We would love to be considered by Boughton Parish Council for any funding to help make this happen.

I have been in talks with a forest school company who would be able to deliver sessions to each class on school sites and help give the children opportunities which they would have had if the building hadn't been incorrectly built. Please could I have some more information about who to speak to/ how to apply to be considered for funding to help support this.

Kind Regards,

Sophie Healy
